Short overview

Project contains **Photoshop file** (CS4 + compatible). All elements are prepared for easy edit, however if you are not familiar with Photoshop and Smart Objects please send me a message and I'll try to help you.

Placing your design

If you would like to place your design inside mock up double-click on the layer that is marked in **red** color.

After you place your design save smart object. Your design will be visible.

If you have any other questions please contact with me by using contact form on my profile page.
